

Changing Lives of Pets and Their Owners

Supplements designed with pet parents in mind

From wagging tails to warm snuggles, pets make our lives better and brighter. Their well-being deserves more than an annual wellness exam. It deserves Standard Process Veterinary Formulas™. Since 1929, Standard Process® has been the visionary leader in whole food nutrient solutions. We work with health care professionals to ensure patients — including animals — receive a holistic approach to nutrition for optimal health.

"I love that they're high-quality, whole food-based supplements."

– Elena, Pet Owner and Foster Parent

Changing Lives with Nutrition

For Happier Days and Healthier Years

Veterinary Supplements for Pets

Standard Process:

- Is committed to changing lives with a whole food philosophy

Standard Process
VETERINARY FORMULAS™

Achieving Holistic Health Through Veterinary Supplements

The key to pets' optimal health is a diet rich in a variety of complex nutrients. The combinations in Standard Process Veterinary Formulas™ provide a spectrum of ingredients to support multiple organs and systems in the body.

Our complex, whole food-based veterinary formulas combine targeted ingredients sourced from raw plants, organ and glandular tissue, and specialized protein extracts.

Whether you're looking for everyday wellness or targeted system support, we have a formula designed with your pet's needs in mind.

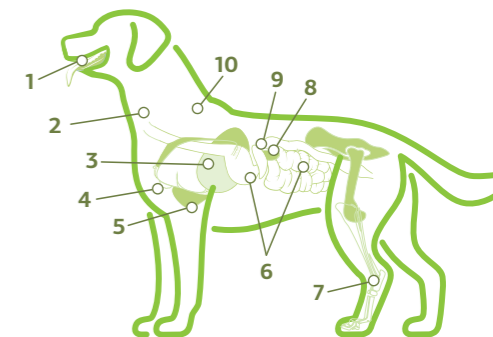

The goal of whole food-based ingredients is to provide nutrients for the body that are as close as possible to how they are found in nature. After all, it is in this whole food state that nutrition is typically harnessed and presented to the body.

Offered through qualified veterinary professionals, Standard Process Veterinary Formulas™ utilize the same state-of-the-art manufacturing processes and high-quality ingredients used to produce our human supplements.

That's because we believe what is good for us, is also good for our pets.

Standard Process Veterinary Formulas™ Support a Variety of Body Systems
